- 1. Could you explain what your activities consist of?** Alphamed Formulations actively participates in a comprehensive range of activities, encompassing drug formulation, patent evaluation, process development, laboratory screening, stability studies, pre-formulation studies, analytical methods development, validation, and transfer. We also specialize in troubleshooting, forced degradation studies, photo-stability studies, ICH stability studies, regulatory compliance upgrades, and various regulatory intelligence services. Our Microbiology lab is dedicated to conducting essential stability and pre-formulation studies, ensuring the necessary groundwork is laid before the manufacturing process begins.
- 2. Why is there a need of cold storage in your organization?** Our organization is actively engaged in conducting diverse stability and pre-formulation studies essential for drug manufacturing. These studies often involve storing temperature-sensitive biological and drug samples. Therefore, the establishment of an efficient cold chain storage system is crucial for our operations.
- 3. Which product did you buy from B Medical Systems?** We have bought Ultra-low freezer U201 and Combined Pharmacy refrigerator and freezer PF260, products from B Medical Systems, specifically for the storage of temperature-sensitive samples, a crucial component in our stability studies for diverse drug formulations.
- 4. What are the features that you like the most? Could you please talk about the performance of the device?** The devices boast a sophisticated and sleek design, seamlessly blending into our lab area. What particularly catches my attention is the °B Connected Software, a standout feature that enables me to efficiently monitor temperatures across various refrigeration equipment. This ensures the safety and integrity of the samples stored within them.
- 5. How are you using the B Medical Systems' product and how does it benefit your institution?** We are using B Medical Systems products to store samples in our Microbiology lab, which are utilized for conducting stability studies on various drug formulations.
- 6. Have you found in B Medical Systems a trustworthy partner?** Yes, B Medical Systems is a trustworthy partner. They have a very dedicated sales and after-sales team. Initially, we faced some software-related challenges, but we do appreciate the solution-oriented approach of the team in resolving the matter swiftly and efficiently.
- 7. How did you learn about B Medical Systems?** We were approached by the B Medical Systems representative in India.
- 8. How long have you been a B Medical Systems customer?** We have been using B Medical Systems products since May 2022.
- 9. Are you satisfied with the equipment?** Yes, we are satisfied.
- 10. Would you recommend B Medical Systems?** Yes, we will recommend B Medical Systems.
